

SKI OUTFITTER APPLICATION COVERSHEET

Date: _____

Applicant: _____ Level: _____

Outfitter: _____ License Number: _____

Purpose: All Idaho Outfitters offering ski guide services must undergo a review in order for the board to classify operations as either Level 1 operating (non-hazardous terrain) or Level 2 (hazardous terrain – avalanche hazard and skilled guide-operations to manage the hazard). During this review a general audit of operations may be done to ensure consistency with Outfitter Operating Plans and permits administered by the land managers where the ski outfitter is conducting operations.

Submitted materials will be reviewed by the Licensing Board and Technical Advisory Committee. A grace period will be given for established licensed outfitters to come into compliance as established by the IOGLB. New Outfitters Applicants must satisfy these criteria for land permits and Outfitter licensing

Note to employing outfitter: Before you submit an application for a new ski outfitter the following check list of requirements must be complete. All applicable documentation, cards and certificates showing proof of completion must be enclosed. Incomplete applications or amendments will not be processed and will be returned.

Qualifications for Licensure:

- ☐ Copies of any permit documents issued by land management agencies where field operations are under permit.
- ☐ Operating Area, Maps depicting the terrain where field operations are conducted and are under permit.
- ☐ The Plan of Operations to include: overview and nature of skiing services which also details scope of services, training standards & procedures for staff/guides, training for operations any related equipment (eg. Snow cats , helicopters, snowmobiles), Standards for hiring guides, and Operation Safety/Response Plan for emergencies. Background and work experience of licensed outfitter and Designated Agent.
- ☐ Named Field Supervisor (Licensed Outfitter or Designated Agent). The Field Supervisor must have a professional guiding resume which demonstrates a minimum of 5 full seasons working in the capacity of the terrain of the operations as a guide.
******Note: failure to satisfy this criterion shall be grounds to withhold or downgrade an operation from Level 2 to Level 1.**

**** See OG-19 Ski Guide and Field Supervisor Application Cover Sheet for Field Supervisor.
